## OBJECTIVE

Full Stack Developer with experience in scalable web applications, backend systems, and AI powered products.

## EDUCATION

**Dr. BC Roy Engineering College**  
*B.Tech in CSE (Data Science) – 7.08 CGPA*

**Aug. 2022 – Jul. 2026**  
*Durgapur, WB*

## EXPERIENCE

**ModelSuite AI** **Jun. 2026 – Present**  
*Software Engineering Intern (Full Stack Development)* *Remote, Germany*

- Worked on production-ready features for an **AI powered SaaS platform**, contributing to messaging, meeting scheduling, performance tracking, and workflow automation modules across a distributed system architecture.
- Built with **React.js, Node.js, Express.js**, and **MongoDB**; designed **REST APIs** and data models to support real time collaboration features, and integrated **Google OAuth** and **Google Meet** as third party identity and messaging providers.
- Contributed to **AI driven workflow automation**, including automated email notifications for overdue tasks, while collaborating in **Agile** sprints using **GitHub** and code reviews.

**Bluestock Fintech Pvt. Ltd.** **Feb. 2026 – Apr. 2026**  
*Software Development Intern (SDE)* *Remote, IND*

- Worked on features for a stock trading platform using **React.js, Node.js, Django**, and **PostgreSQL**, leveraging AI assisted development and prompt engineering to accelerate implementation and debugging.
- Integrated **REST APIs** and used **Pytest** for unit testing to catch regressions early.
- Collaborated in an Agile development environment to debug issues and deliver production ready features.

**Tata Motors Ltd.** **Jan. 2025 – Mar. 2025**  
*Software Developer Intern (Full Stack Development)* *Jamshedpur, IND*

- Led a team of 4 interns to develop a Ticket Management System serving **1000+ employees**.
- Built backend services and **REST APIs** using Node.js, Express.js, and MongoDB.
- Optimized database operations and collaborated using **Git based** development workflows.

## PROJECTS

**MediBrain – AI Powered Healthcare Platform (Live)** **Link**

- Built and deployed a full-stack AI powered healthcare platform using **Next.js, NestJS**, and **MongoDB Atlas**, with doctor discovery, hospital exploration, and appointment booking across a distributed client server architecture.
- Designed a slot based booking system with data modeling for concurrency safe scheduling, and **integrated an AI health assistant** for symptom analysis and health monitoring.
- Deployed the application using **Vercel** and **Render** with cloud database integration, **CI/CD** for continuous delivery.

**PocketPaw – AI Agent System (Open Source Contribution)** **Link**

- Contributed to an open source AI agent platform by enhancing backend functionality and security.
- Implemented **vector database** integration to improve semantic search and information retrieval.
- Collaborated through GitHub, code reviews, and issue driven development workflows.

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, TypeScript, SQL  
**Backend:** Node.js, Express.js, NestJS, REST APIs  
**Databases:** PostgreSQL, MySQL, MongoDB, MongoDB Atlas  
**Programming Concepts:** Data Structures, OOP, DBMS, SDLC, Agile  
**Frontend:** HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap  
**Cloud & DevOps:** Linux/Unix, Docker, CI/CD, Git, GitHub, Vercel, Render  
**Testing & Tools:** Pytest, Postman, ChatGPT, Claude

## CERTIFICATIONS

**Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate– Oracle University (Link)**  
**Data Structures and Algorithms (Java) Certificate (Link)**

## ACHIEVEMENTS

- **Examinations** Qualified TATA STEEL (TISCO) Trade Apprentice Exam 2021
- **Awards:** Awarded Best Project of the Year by Institute
